Description

Preconditions:
1.Authorized user located on the home page
https://wallet-q-a.netlify.app/home
Steps to reproduce:
1. Click "+" button located on the Home page
2. Observe the transaction type selection button
Actual result:
The form uses a toggle button to select the transaction type.
Expected Result:
The form should use radio buttons to select the transaction type (Income or Expense) as per
the design requirements.
